

09-03-17.

Dear Ian Grey and all at Glensanda and Argon Engineering,

We are absolutely delighted with the ramp you have provided for access to the Portacabin for Oban & Lorn Riding for the Disabled.

It is exactly what we needed to provide safe and easy access for wheelchairs and for our disabled young adults and children to collect their hats etc before their riding sessions.

Everyone applauds the design and all that you have done for us and our young people

Thank you so very much

Susan D. Jones.
